Art Unit: 1616

Claims 1-5, 9-10, 15 are pending in this application. These claims will be examined to the extent that they read on the elected subject matter of record.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negative by the manner in which the invention was made.

Claims 1-5, 9-10 and 15 stand rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over WO 00/35930 for the reasons of record.

Applicant's arguments relative hereto, filed in paper no. 13 (10/2/02), have been given due consideration, but they were deemed unpersuasive. Applicant neglects to take into account that the claims here are also open to cancer cells. Cytotoxicity against tumor cells will have the end result of stopping angiogenesis, as that is how cancer cells grow. In fact situation such as here, where the end result is merely an effect of a prior art process, it has been held proper to reject the claims in the alternative grounds of sections 102 and 103 (a). See the case authority cited in the previous office action.

For these reasons, no claim can be allowed.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
